

Abbingdon at the Park Community Garden

1850 South Seneca Street (near South Liberty Street), Alliance.

Abbingdon at the Park is a newly-constructed affordable senior housing complex located in Alliance. Operated by the NRP Management Company, the complex consists of 56 two-bedroom apartment rental units, and includes such amenities as: activity rooms, a clubhouse, beautifully landscaped grounds, and more.

Melinda and Paul Carmichael of Beech Creek Botanical Gardens worked closely with the management to construct a community garden at the site for residents of the complex. The garden permits seniors to access, tend, and harvest produce; and, enjoy the outdoors.

The garden was established in 2015, and consists of six raised beds filled with various vegetable and herb plants, including tomatoes, peppers, squash, and zucchini; with perennial flowers lining the pathways of the raised beds. All members of the housing unit have access to the garden.

For more information, contact: Melinda Carmichael at 330-829-7050, or info@beechcreekgardens.com
